Subject :	Authorities to which a freezing order should be sent for recognition and immediate execution in Sweden

In Sweden public prosecutors are responsible for the recognition and immediate execution of freezing orders from another Member State. The prosecutors also have the responsibility for all contacts with the issuing authority in the issuing state.

All public prosecutors at the international public prosecution offices and some specially authorized public prosecutors at the Economic Crimes Bureau, are competent within their regions to deal with cases about recognition and immediate execution of freezing orders in Sweden.

The specially authorized public prosecutors at the Economic Crimes Bureau only deals with cases concerning qualified economic criminality.

Outside office hours regular duty and stand-by prosecutors also are competent to handle cases concerning recognition and immediate execution of freezing orders.

Below you will find the addresses and other contact information to the prosecutors who are competent within their geographical regions to deal with freezing orders from other Member States, see annex A.

Where there are doubts as to which prosecutor is responsible for receiving a certain freezing order in Sweden, information can be sought from the Office of the Prosecutor-General or a contact point in the European Judicial Network (EJN).
