

# European Judicial Cybercrime Network - Newsletter

Issue 5 – July 2022/September 2022

## WELCOME

For the first time in 2 years, the EJCNC met in person at Eurojust to discuss virtual currencies and new developments related to cybercrime and digital evidence in connection to the War in Ukraine.

Change is happening and the Judiciary needs to develop the necessary skills to address new problems.

As Summer Break settles in, we can always go back to sci-fi classics such as *Neuromancer* and prepare for a fresh start in September.

*“Cyberspace. A consensual hallucination experienced daily by billions of legitimate operators, in every nation, by children being taught mathematical concepts...”*

*William Gibson in “Neuromancer”, sci-fi author and first to mention the word cyberspace*

## THE NETWORK PAST AND FUTURE
