FOREWORD SECRETARY GENERAL

With great pleasure, I hereby present the calendar of seminars developed by the European Judicial Training Network (EJTN) for 2018.

The EJTN is the principal platform and promoter for the training and exchange of knowledge of the European judiciary, with the goal of fostering a common legal and judicial European culture. EJTN represents the interests of over 120,000 European judges, prosecutors and judicial trainers from across Europe and its fields of interest include EU, civil, criminal and commercial law, and linguistics and societal issues training.

EJTN's activities are the outcome of cumulative efforts of EJTN Members, encompassing 37 national training institutions from all 28 EU Member States, with the goal of forming a European area of Justice. These efforts include, but are not limited to, identifying training needs, designing training events, identifying experts, and hosting events. They aim not only to increase participants' knowledge and/or skills but also to widen inter-community perspectives. Participation fosters the growth of trust between judges and prosecutors of different EU Member States, improves their linguistic capacity, and assists in the building of personal networks.

EJTN's programmes and activities are built on an extensive training needs' analysis. These needs are expressed by EJTN Members within the structure of the EJTN Working Group Programmes and its 5 Sub-working Groups, by participants of EJTN activities, numerous partner organisations, including judicial networks and associations, as well as the European institutions and EU Council Presidencies.

For concise information on how, when and where to apply, please follow the instructions below. I encourage everyone to take part in the presented seminars and disseminate information on EJTN training opportunities. I also sincerely invite you to take part in the flagship activity of the EJTN, its Exchange Programme and e-training offers. Please use our database of materials and resources, which are all described in this publication.

Finally, I would like to express thanks to the European Commission for its financial support, the EJTN Secretariat for managing presented activities, and to the EJTN Members for their dedication and commitment.

Judge Wojciech Postulski
EJTN Secretary General

VIRTUAL LEARNING

<http://learning.ejtn.eu/course/view.php?id=8>

In its drive to adopt the best of modern learning technology and to tailor judicial training to today's environment, EJTN's virtual learning package encompasses both blended and eLearning components.

Blended learning

EJTN's blended learning modules successfully combine the best elements of virtual and traditional classroom-based learning.

Several of EJTN's training seminars feature pre-classroom self-study components, which are to be completed by participants online before the classroom study commences. Designed to maximise learner engagement and interaction, these activity-rich modules allow participants to come fully prepared to the classroom.

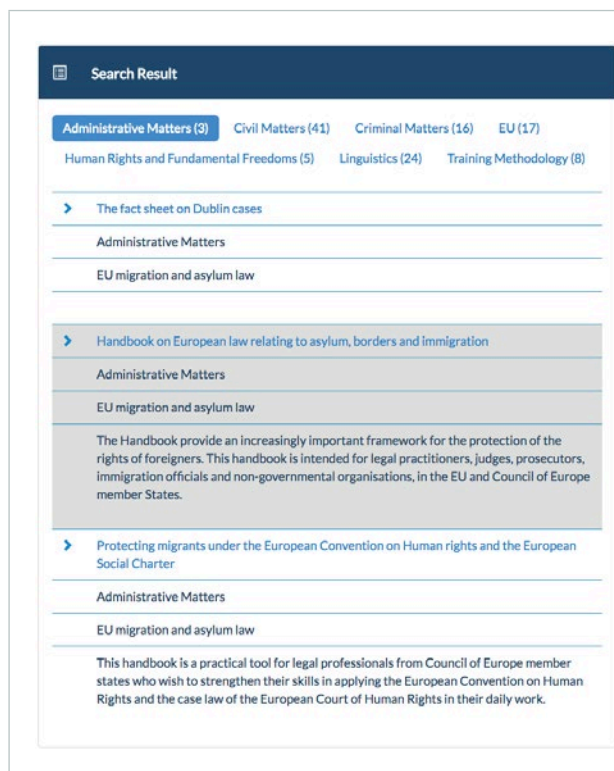

With the help of expert virtual learning consultants, EJTN has prepared blended learning modules for training seminars within its linguistics criminal justice portfolios.

METHODOLOGIES AND RESOURCES DATABASE (MRD)

<http://www.ejtn.eu/Methodologies--Resources/>

As one of EJTN's recent innovations, the new Methodologies & Resources Database (MRD) brings together the very best of judicial training resources from across Europe.

The screenshot shows a search results page with a dark blue header containing a search icon and the text 'Search Result'. Below the header, there are several filter tabs: 'Administrative Matters (3)', 'Civil Matters (41)', 'Criminal Matters (16)', 'EU (17)', 'Human Rights and Fundamental Freedoms (5)', 'Linguistics (24)', and 'Training Methodology (8)'. The main content area lists three search results, each with a blue arrow icon on the left. The first result is 'The fact sheet on Dublin cases', with sub-headers 'Administrative Matters' and 'EU migration and asylum law'. The second result is 'Handbook on European law relating to asylum, borders and immigration', with sub-headers 'Administrative Matters' and 'EU migration and asylum law'. The third result is 'Protecting migrants under the European Convention on Human rights and the European Social Charter', with sub-headers 'Administrative Matters' and 'EU migration and asylum law'. Each result includes a short descriptive paragraph.

MRD is a centralised collection of searchable judicial training-related resources, which are sourced from EJTN, its Members and other stakeholders. The available resources cover the broadest range of topics, including criminal and civil law, human rights, administrative matters, training methodology 'Judgecraft' and linguistics.

The format of the resources include links to e-Learning opportunities, training materials, reports, case studies, podcasts, bibliographies as well as handbooks and guidelines.

Searching for resources couldn't be easier than MRD's user-friendly search interface! Search by title, topic, sub-topic, format, language or source.
